DATE MAILED: 12/09/2005

Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary	Application No.	Applicant(s)
	10/630,465	DESAI, KIRAN R.
	Examiner Jonathan Barton	Art Unit 2186

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) Responsive to communication(s) filed on 30 July 2003.
 2a) This action is FINAL. 2b) This action is non-final.
 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) Claim(s) 1-44 is/are pending in the application.
 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
 5) Claim(s) 14-44 is/are allowed.
 6) Claim(s) 1-13 is/are rejected.
 7) Claim(s) _____ is/are objected to.
 8) Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) The specification is objected to by the Examiner.
 10) The drawing(s) filed on 30 July 2003 is/are: a) accepted or b) objected to by the Examiner.
 Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
 Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
 11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
 a) All b) Some * c) None of:
 1. Certified copies of the priority documents have been received.
 2. Certified copies of the priority documents have been received in Application No. _____.
 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

2. Claims 1-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Albonesi et al. (US 5,113,514) in view of Anonymous Disclosure (IPCOM000010890D).

a. As for claims 1 and 8 Albonesi discloses

i. Determining a cache line state, the cache line state being associated with [] a cache line in a second cache (Col. 10 Lines 27-30); and

ii. Posting a hit-modified signal if the cache line state is an enhanced exclusive state (Col. 9 Lines 14-18),

iii. Wherein the enhanced exclusive state indicates a copy of the cache line is in the first cache in a modified state (Col. 9 Lines 7-13).

b. Albonesi fails to disclose

iv. The cache line state being associated with the external cache snoop probe.

v. Anonymous Disclosure teaches this (Par. 7 Lines 3-5).

- vi. It would have been obvious to one of ordinary skill in the art at the time of the invention to have combined the snoop probe taught by the Anonymous Disclosure with the cache coherence method of Albonesi because both systems are cache coherence systems based in a MESI type coherence method and the snoop probe provides improved functionality, improved cache performance and improved overall performance (Anonymous Disclosure Par. 6 Lines 2-5).
- c. As for claims 2 and 9 Albonesi discloses
 - vii. Posting the hit-modified signal if the cache line state is an enhanced modified state, wherein the enhanced modified state indicates a copy of the cache line may be in the first cache (Col. 9 Lines 14-18, Col. 9 Lines 4-7).
- d. As for claim 3 and 10 Albonesi discloses
 - viii. Posting the hit-modified signal if the cache line state is a modified state, wherein the modified state indicates the second cache owns the cache line and the first cache does not own the cache line (Col. 8 Lines 24-33).
- e. As for claims 4 and 11 the Anonymous Disclosure teaches
 - ix. Sending a snoop-to-invalidate probe to the first cache after posting the hit-modified signal (Par. 7 Line 10).
- f. As for claims 5 and 12 the Anonymous Disclosure teaches

- x. The external cache snoop probe is sent to the second cache, a second cache write-back queue, and an intermediate structure between the first cache and the second cache (Par. 7 Lines 3-5).
- g. As for claims 6 and 13 the Anonymous Disclosure teaches
 - xi. The external cache snoop probe is sent only to the second cache, a second cache write-back queue, and an intermediate structure between the first cache and the second cache (Par. 7 Lines 3-6)
- h. As for claim 7 the Anonymous Disclosure teaches
 - xii. Determining a snoop type associated with the external cache snoop probe is one of a snoop-to-share type and a snoop-to-invalidate type (Par. 7 Line 10 – Par. 8 Line 2).

Allowable Subject Matter

- 3. Claims 14-44 are allowed.
- 4. The following is a statement of reasons for the indication of allowable subject matter:
 - i. Claims 14 and 18 contain at least the following allowable subject matter:
 - xiii. Posting a hit signal if (i) the snoop type is a snoop-to-share type, (ii) the cache line state is a shared state, and (iii) the second cache posts a write-back miss signal.
 - j. Claims 21 and 25 contain at least the following allowable subject matter:

- xiv. Sending a snoop-to-share probe to the first cache if (i) the snoop type is a snoop-to-share type, (ii) the cache line state is an exclusive state, and (iii) the second cache posts a write-back miss signal.
- k. Claims 29 and 33 contain at least the following allowable subject matter:
- xv. Posting a no hit signal and a no hit modified signal if (i) the snoop type is a snoop-to-invalidate type, and (ii) the cache line state is a shared state.
- l. Claims 38 and 41 contain at least the following allowable subject matter:
- xvi. Posting a no hit signal if (i) the snoop type is a snoop-to-share, (ii) the cache line state is an exclusive state, and (iii) the second cache posts a write-back miss signal.
- m. Claims 15-17, 19-20, 22-24, 26-28, 30-32, 34-37, 39-40 and 42-44 depend from and further limit allowable independent claims, and are therefore also allowable.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jonathan Barton whose telephone number is 571-272-8157. The examiner can normally be reached on Monday - Friday 8:30 - 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matt Kim can be reached on 571-272-4182. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
